JOHN H. SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. The proprietor of these truly valuable Medicines might fill a volume with Certificates and Testimonials in favor of his articles; but, considering such puffs wholly useless, since they are so readily manufactured, and made use of to such an extent to palm off so much useless trash upon the public, I shall, therefore, state at once, the various diseases that can be speedily cured by these Invaluable Horse Renovating Powders, viz:—Glanders, Hidebound, and Horse Distemper. It also carries off all gross humors, and purifies the blood. It is also a safe and certain cure for the HEAVES; it will also cleanse, at once, the stomach and maw from bots, worms, &c., and again restore the stomach and bowels to healthy action.

SMITH'S RENOVATING OINTMENT is an invaluable remedy for horses, in the cure of the following diseases: Fresh Wounds, Galls of all kinds, Sprains, Bruises, Ringbones, Poll Evil, Wind Galls, Sprains, Sweeny, Fistula, Strains, Lameness, Foundered Feet, Cracks, and Scratches.

The above articles are to be had in most of the Cities and principal Villages throughout the United States, and the Canadas.

Price, 25 cents per box for the Ointment; 50 cents for the Horse Renovating Powders.

Dr. Smith has been long and favorably known in New York City as an eminent and experienced veterinary Surgeon, and we think his articles may be relied on as furnishing the best possible remedies for the diseases for which they are recommended. R. R. HAZARD & CO.

BLISS'
JENNY LIND
HOT AIR COOKING RANGE.

IN presenting this Range to the public, the subscriber would call attention to its merits. He has been well convinced from his own observations that the public are in want of a Range with such improvements as will render it more perfect for all purposes of domestic utility and economy, than any now in the market. In the article which he now offers to the public for examination, he has (if he can place any reliance upon the assurance of experienced dealers in Ranges and Stoves, his customers and his own experience and observations) been successfully beyond his most sanguine expectations. The Oven is so constructed as to secure the certainty of thorough baking the bottom of all articles proper to be cooked in an oven. It is unnecessary to say to those who have used ranges, that no previous pattern has been free from defect in this particular.

All parts of this Range is double the usual thickness.

It has been pronounced by competent judges, the most beautiful and perfect in its appearance, of any Cooking Range of this country, with some advantages over many ranges that are made. I would call your attention

1st, To its general beauty and great strength of castings. Also, the quality of iron and the care and skill with which they are moulded. Also, notice the top which is so constructed as to prevent the least possible chance of breaking or burning out.

2d, The form of the fire chamber—a cylinder lined with soap-stone, or fire-brick, and known to be the best form of fire chamber in which to burn coal.

3d, Notice the front of the range closes tight, with a register in the window, to give draft, which when closed makes the range perfectly air tight. Also, a new arrangement for dropping the grate from the outside, so that no dust can escape in the room.

4th, The simplicity of the arrangement; it having but one Damper, which manages the whole. Also, the convenience for cleaning the flues, and a convenient place to put the coal scuttle and a very large oven, of capacity enough to bake twelve pies. Also, a bath boiler, which can be heated by a side or back flue, or a water back, and a new and improved boiler fixture which will heat a room from 12 to fifteen feet square, with the same fire that is used in cooking. There are five sizes of these Ranges, all of them can be set with double ovens either No. 1, 2, 3 or 4, at the option of the purchaser.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.
Safety—Stability—Economy.

THIS long established and well known company having organised a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations materially ... life assurance the mutual companies, and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexatious contingencies which are inseparable from the mutual system. It is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 40, 45, 50, 55, or 60, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

NEWPORT,

BY CRANSTON & NORMAN,

127 THAMES STREET.

FRIDAY MORN'G AUG. 15, 1851.

☞The "First Grand Concert and Soiree Dansante" of the season took place at the Ocean Hall, on Wednesday evening last. The audience was much larger than at any previous Concert.

The programme was taken up with commendable punctuality, and also without that previous scraping and tuning of strings which are many times inflicted by performers upon a suffering audience.

The first in the order was the "Grand Overture "Hugenots." The rendering of this was most excellent. The music, or at least a part of it, is extremely difficult in its movement. It requires extreme ease in order not to break the time. In this, which is so difficult for many to attain,—the most perfect time, the Germania Society are perhaps unrivalled. Certainly in the "Hugenots" is afforded an opportunity for its exhibition in no small degree. Very rarely, if ever, are we permitted to hear the retard and increase so perfect as we were on Wednesday evening.

The next, "Ariel de concert," "Violin obligato," from Herold, was very effectively rendered. Notwithstanding the weather was such as to keep the Violin Strings constantly breaking, thereby not allowing those instruments to be as smooth as they usually are, the audience were delighted. It is always pleasant in anticipation to see "Violin Solo or obligato, Mr. Schultze," on the programme. In this instance the anticipation was more than realised, as the bravos and applause at the conclusion fully testified.

The third on the bill was "Variations brilliants on Weber's Deniere Pensee" by Hoinemeyre, executed by Mr. Zerrahn, on the flute. This was one of the most *brilliant* gems of the evening. It was executed as we thought with rather more warmth than at the previous Concert. But we must still say that Mr. Zerrahn is certainly the coolest player we ever heard. He will execute the most brilliant, rapid, or difficult passages, exciting his audience to the highest pitch while he himself is apparently as calm as a moonlight evening. He reminds one of a powerful writer, who will use the most exciting language, causing the very depths of the soul and in the next sentence is as placid and calm as language probably can be. Or perhaps, still better, he is like the Orator, who, while he is producing the most intense excitement in his audience,—swaying them to and fro at will, now causing the tear of joy to flow, anon sorrow's fountains are stirred,—while he himself, perfectly conscious of power, remains calm and collected, directing the passions at his pleasure.—In Mr. Zerrahn, Heinemeyre may well be proud of a most accomplished pupil.

In the "Terzetto and Finale" from "Lucretia Borgia" we had the opportunity to hear the Bassoon in a solo which was beautiful and most beautifully performed. Taking all the circumstances into consideration, we doubt whether there is any instrument better played by the Germanians than the Bassoon. An experienced musician, present, who has long been engaged in music, who has led an orchestra in which was one of these instruments, for a number of years could scarcely believe that it was a bassoon which he heard. Can we not have a piece, on a future occasion, which shall bring that instrument still more prominently before the audience?

To write in any manner critically of the last "Overture to Midsummer Nights Dream," by Mendelssohn, would require the whole of a long article for that purpose alone. To write aught of the music is simply superfluous. All who aim at being classically read in music will certainly hear it. It really seemed as though we could see the bright moonlight glittering and streaming among the leaves, at a still midnight hour. As to the performance, we will add that it was worth the price of admission to have the privilege of hearing that *diminuendo*. It really seemed as though we could trace the happy company in their ramble from the woods to the palace.

Generally, this "Concert and Soiree Dansante" is *the* event of the season. It was more lively and spirited than have been either of the Hops or Balls. Owing to some cause, that class who attend a Concert or Lecture, in appearance, for no other purpose but to disturb their neighbors and show their own want of good manners, were absent. We noticed only one or two instances of such conduct, and hope they will continue "to grow beautifully less."

The Quadrilles passed off with spirit and to the manifest pleasure of those engaged in them. And we must say that Miss D—— waltzed beautifully, notwithstanding our dislike of that species of dancing.

The audience departed at a late hour, well pleased with their entertainment.

☞We have recently been informed that persons in this town are in the habit of visiting Concerts and other places of amusement, and representing to the door-keepers that they are connected with the *Daily News* Office, or that they are authorised to go in upon the credit of this office. We now expressly state that we have never given any such authority to any person whatever; and would further add that no person whatever is authorised to visit any place of amusement in this town, or elsewhere, upon our reputation, unless they produce a written order signed by one of the proprietors of this paper.

☞We are happy to announce that Madame Boushelle, the distinguished Vocalist, and sister of W. V. Wallace, the eminent Composer, will give a grand Concert at the Ocean House Hall, one week from to-morrow night. Her Orchestra will consist of the celebrated Germania Musical Society. Madame Boushelle is a pupil of Garcia, the teacher of Jenny Lind. Madame B. is a most accomplished artist, and this mere announcement of her intended Concert will create a thrill of delight among all those who are fond of music, because they well know that they have a rich feast in store. Madame Boushelle has sung to immense audiences, both in this country and Europe, and her reputation alone will ensure a crowded audience on this occasion.

☞We are necessarily compelled to defer the publication of letter No. 4, by the "Spy at the Ocean House," until to-morrow morning.

☞There will be a Hop at the Bellevue House this evening.

HEADACHE AND NERVOUS DEBILITY.—Thousands who suffer from these complaints are ignorant that the real cause, in most instances, is a weakened and deranged state of the stomach and digestive functions. The Oxygenated Bitters are peculiarly adapted to the cure of these symptoms, and impart a pleasant sensation of health and strength without the least intoxication. Ladies will find them a most agreeable remedy.

THE MARSHALL JUBILEE.—This turned out a great affair. An average of five or six thousands of people occupied the wide area of Castle Garden from an early hour in the morning, until eleven at night, and there was a succession of entertainments kept up during all that time, combining dramatic and musical performances in English, French, German, and Italian; and the whole closing with a brilliant display of fireworks on the Battery, which was not over much if any, before "the iron tongue of midnight had told twelve." Altogether, it was a most triumphantly successful affair, and reflected great credit on its ingenious projectors, the indefatigable executors, and the worthy recipient of the compliment. Where there was so much done, to undertake to particularize, with the limited space at our command, would indeed be invidious. We shall therefore content ourselves with the remark, that it was a great affair, greatly conceived, and greatly carried into operation.—*N. Y. Mirror.*

"SPIRITS DISGUISED."—Liquors in large quantities are still sent to the State of Maine, but the ardent is so well disguised that it defies even the lynx eyes of the Committe of Vigilance.—The Boston Times says:

We know of one house in this city where a quantity of "Dark Otard" (brandy) was pumped into a ten gallon keg—the keg then packed with shavings in a flour barrel—the barrel headed up, and marked "glass, this side up with care." It went through safely, and was duly devoured.

"Liberty of Conscience"—Gen. Wool.

As an act of justice to the military service, the Secretary of War, and myself, I am induced to notice an article published in the *Boston Atlas* and other papers, headed "Liberty of Conscience—the Secretary of War"—relating to the case of Private Duggan, of the Fourth Artillery.

It is not true as asserted by the editor of the *Atlas*, that Private Duggan was punished for refusing to attend church, nor is it true that the sentence was set aside by the Secretary of War. For disobedience of orders and leaving his company without permission, he was subjected to the payment of a fine of about five dollars, and this is all the punishment he has received. The following letter to the Secretary, however, exhibits a true history of Duggan's case:—

WASHINGTON, July 5, 1851.

SIR:—I have the honor, agreeably to your (verbal) request, to report my action in the case of Private Duggan Fourth Artillery, who was tried at Fort Columbus, by a General Court Martial, ordered by Brevet Brigadier General Walbach. The proceedings of the Court were transmitted to General Walbach, who declined acting in the case, and sent them to myself for decision. I returned the proceedings to the General, with instructions, in which I observed that inasmuch as Duggan exhibited far more a spirit of insubordination than religious scruples, I thought he deserved punishment. At the same time, I suggested that excepting a fine of five dollars, the sentence be remitted. The General still declined acting in the case, and returned the proceedings to me with a request that I would submit the case to higher authority for decision. This I declined to do, and issued the enclosed order, (which remitted the sentence with the exception of a fine of five dollars,) informing General Walbach by letter, that if he desired to have the question settled by higher authority, whether or not a Catholic should attend a Protestant church, on his application, I would submit the question. But the case was not one of that character. The punishment inflicted was not on account of his religious scruples, but for refusing to apply to his commanding officer for permission to stay away from church and for leaving his company without permission.

I am, very respectfully,
Your obedient servant.
(Signed)

It is proper, however, to remark, that previous to receiving the letter of the Secretary of War, dated the 15th of July, that portion also of the sentence imposing a fine of five dollars per month was remitted. By this remission, Duggan was subjected only to a fine of five dollars. The following is my reply to the Secretary:—

HEAD-QUARTERS, EASTERN DIVISION,
TROY, N. Y., July 18, 1851.

SIR:—I had the honor this day to receive your communication of the 15th instant. In answer thereto, I would enclose two orders showing my action in the case of private James Duggan, the soldier, I presume, alluded to as having been punished for refusing to go to church. Allow me to say that he was not punished for refusing to go to church as you will perceive by an examination of the order No. 11. By special order. No. 30, you will also observe that I have remitted the residue of his sentence.—The only punishment he received was a fine of about five dollars.

I have the honor to be, sir,
Your obedient servant,
(Signed,) JOHN E. WOOL.

There was no evidence before the court, except the simple declaration of Duggan to one of the witnesses, that he was a Catholic. From the testimony of Colonel Gardner, I have no doubt that had Duggan communicated to the Colonel, that on account of his religious scruples he could not conscientiously attend a Protestant church, he would have been excused. But this he would not do, and left his company. For this act of disobedience and insubordination, and for nothing else, I approved so much of the sentence as imposed a fine of five dollars.

From the remark of the editor of the *Atlas* upon the letter of the Secretary of War, it might be inferred that the officers of the army as well as myself are intolerant, and would "punish a man for declining to give up to his officers in the army his religious belief." I am gratified to find the editor exhibiting towards the Catholics, and especially to the Irish, those tolerant feelings which no less become his head than his heart. But I yield not to him or any one else in feeling and sympathy for a people who have suffered more from oppression and bad government than any other on the face of the Globe. Far from it. Indeed, I would extend to them to the fullest extent—the guarantees of the constitution—civil and religious liberty.

JOHN E. WOOL, U. S. A.

THE NIGHTINGALE NOT GOING. The Tribune learns on good authority, that Jenny Lind will probably give a number of concerts in this country during the coming winter, and that she has employed Mr. Bushnell, formerly one of Mr. Barnum's agents, to take charge of the business part of them.

The Vermont *Union Whig* has raised the Webster flag for the Presidency.

THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we produce a medicine that would

INSTANTLY STOP THE MOST SEVERE
PANGS OF PAIN.

A dispensing curative cure.

We proposed to Hospitals, and all other institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce

RADWAY'S READY RELIEF,

for their investigation and to illustrate its merits and to render its power over pain upon the patients. We claimed that it would allay in a few minutes the [illegible]

RHEUMATIC PAINS,
DIARRHEA, NEURALGIA, &c.
TIC DOLOREAUX,
CHILL FEVER.

That it [illegible] it would relieve the most severe [illegible] the bowels, and in fifteen minutes it would stop a [illegible] and [illegible] discharges, and [illegible] to every case, and secondly [illegible] that it would positively relieve the most severe and intolerable pains of sick and nervous headache in fifteen minutes, and effectually cure the distressing [illegible].

That in 20 minutes it would [illegible] the cruel pains of Neuralgia, [illegible] this ever [illegible] That it would stop the most tormenting toothache in a few seconds.

That it would remove all rheumatic pains in fifteen minutes, [illegible] the many Chronic case of Rheumatism in a few hours.

That it possesses a [illegible] soothing and relieving [illegible] over all pains originating from Rheumatic, Neuralgic Nervous and Bilious complaints, and that the patient suffering the most excruciating [illegible] would feel [illegible] in a few minutes.

The world was startled at the publication of our discovery. The wise savans of Medical Science shook their heads in doubt. The sick and afflicted hoped yet, feared that like other remedies it would prove good on paper. But by practical experience [illegible] thousands who were suffering with the most excruciating pains, at once determined to try it—the consequence was, that from almost every village town and city, within 500 miles of New York, we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it [illegible] the most torturing pains were annihilated; weak and feeble victims of Rheumatism, who had been [illegible] for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgic, Sick and Nervous Head Ache Chill Fever, Diarrhea, Cramps, Spasms, Cholera Morbus, and in fact all painful and distressing Acute Complaints, were suddenly relieved from their tortures and restored to health. Its fame spread from city to city, the people sounded its wonderful virtues far and wide, and ere the earth had run its yearly course,

DOCT. F. GOURAUD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France,

SURGEON OCULIST,

DENTIST,

AND PROFESSOR OF CHEMISTRY: has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years past; that he has begun again his former practice of Medicine and Surgery, at his Dwelling, No. 19 Bridge Street; where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warranties, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust, either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronics, inflammatories or accidentals, which afflict the Eyes and the Sight, either in yearly subjects or older ones: the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABICS SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute's anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to induce a Strabic, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabism, in the city of New York, upon 21 Strabic subjects, with an indisputable success, after having operated upon upwards of 330 in France.

june23. F. GOURAUD.

Professor Alexander C. Barry's

Tricopherous, or Medicated Compound, for restoring, preserving, and beautifying hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, &c.,—In order to convince the public of the efficacy of any curative preparation, in this thinking and reflective age, it is necessary to explain the philosophy of its operation. The process by which Professor Barry's Tricopherous produces such extraordinary results, cannot be understood, without a brief notice of the structure and uses of the delicate substances to which it is applied, and in the condition of which it accomplishes the most salutary changes. The connection between the hair and the skin is so close, that the one may almost be deemed a continuation of the other; and hence whatever renovates, restores, and nourishes the hair, must of necessity have a healthful influence upon the sensitive membrane in which its roots are fixed. The skin, that wonderful envelope, in which the sense of touch resides, consists of three layers; the epidermis, or cuticle, a semi-opaque, or almost insensible film; the rete mucosum, which is a spongy membrane, reticulated with nerves and blood vessels, and forms a sort of shield to the exquisitely sensitive true skin; and the true skin itself, which constitutes the third layer of the triple envelope. In this tough, flexible, and elastic integument, are located the nerves, blood-vessels, &c., which supply sustenance to the hair, and in the derangement of which diseases of the skin originate. The vessels of the true skin supply the sacs containing the roots of the hair with the moisture which sustains the fibres, and the same causes which affect the health of the hair, also affect the health of the skin. It acts through the skin upon the hair, stimulating the inert vessels, opening the pores, imparting activity to the circulation, awakening from their lethargy all the vegetative functions which give life, vigor, and beauty to the mires, exterminating every particle of scurf and dandruff, and soon clothing even the bald or half denuded head with a thick, glossy, silky, and elastic covering. But this is only one of the uses of Professor Barry's Tricopherous. The same properties which restore vital and vegetative power to the skin of the head, are equally beneficial in all cutaneous diseases or superficial injuries. For cuts, burns, bites of insects, sprains, erysipelas, blotches, pimples, scabies, ringworm, rashes, scrofula, prickly heat, chilblains, chapped hands, rheumatism, burns, scalds, bruises, redness of the skin, and in short, all the troublesome and painful external diseases and injuries which are so common in families, and which nothing but external remedies can remove, the Tricopherous will be found a speedy, safe and unfailing cure. By virtue of its double claim as a renovator and beautifier of nature's choicest ornament, and a potent and invaluable remedial agent, it is entitled to a place on every toilet and in every medicine chest. Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, N. Y., and by the principal merchants and druggists throughout the United States and R. J. TAYLOR, Newport, and J. BALCH & SON Providence. may1.

PHALON'S CHEMICAL HAIR INVIGORATOR.

THE enormous progressive increase in the sale of this unrivalled article for renewing, beautifying and perpetuating the growth of the hair, is a proof of the common sense and experience of a sagacious public will ensure the triumph of a genuine preparation, which sustains by its results the inventor's guarantee over all spurious nostrums, however they may be bolstered by fulsome puffs, or propped up by manufactured statements.—Where the hair has fallen off, it will, in all cases where the vitality of the roots has not been destroyed, produce a full growth of fibres, as elastic and glossy as those with which the denuded scalp was originally clothed. Where the hair is loosening, and thinning, it will refix the yielding roots and restore the growth on the spots which have become bald. If the hair is harsh and dry, the Chemical Invigorator will render it soft, flexible, and lustrous; for it penetrates to the sacks in which the roots of the hair terminate, and is thence conveyed through each tubular fibre, lubricating the dry substance, and imparting vigor, beauty, and vegetative power to the whole mass of filaments. In cases where the head has become bald, or partially so, by disease, whether local or general, the Chemical Hair Invigorator will infallibly reproduce the lost covering of the scalp in its original profusion and beauty. It has the property of darkening the hair, as well as promoting its growth, elasticity and lustre. The lady or gentleman who uses it regularly, according to the directions, need not fear that age will bring, so far as they are concerned, its usual concomitants, grey hairs—or, at least, until years after the period when they ordinary make their appearance. In short—by young and old, by both sexes and all classes—Phalon's Chemical Hair Invigorator will be found not only the very best, but the only preparation by which the hair can be preserved in all its natural luxuriance, and endowed with all the additional beauty and perfection which it is the province of art to bestow.

HAIR DYING.

Phalon's Magic Hair Dye, to color the hair or whiskers the moment it is applied without injury to the hair or skin. It can be washed immediately without disturbing the color, and has no bad odor. It is applied, or sold at GORTON ANDERSON'S Barbering and Hair Cutting Emporium, 103 Thames Street. june1. 1y

DALLEY'S MAGICAL PAIN EXTRACTOR.

The Original and only genuine—in a new envelope and much enlarged boxes.

THIS only never failing and sovereign remedy for burns, scalds, piles, salt rheum, cuts, wounds, bruises, chilblains, swellings, old inveterate sores, inflammatory rheumatism, sore and inflamed eyes, and all cutaneous and inflammatory diseases, is extensively counterfeited in the old wrapper!! Avoid it as you would poison—for, to use it, is as dangerous!

I refer to my printed Pamphlets for testimonials of cures performed, and for the truth of every word of which I hold myself responsible. Were I to embody all the testimonials I have received, it would fill a quarto volume of 1000 pages.

A CHALLENGE TO THE WORLD!

I will forfeit $10,000! to be paid to any charitable institution, or institutions, if ANY or ALL other articles that flood the market, as Salves, Liquids, or so called Exterminators, Extractors, Killers, (an appropriate name for some,) can perform such a cure, in all its particulars, as is related in my circulars, as the

HAGUE STREET EXPLOSION CASE!!

And I will pay to any party $1,000 if he can prove that there is any thing in that statement not STRICTLY TRUE! I deem it useless to say more in reference to the

GENUINE DALLEY SALVE!

CAUTION!

Avoid fraud, and you gain near 50 per cent.—Shun the poisonous counterfeits in the old wrapper, and buy Dalley's Extractor only in the new envelope and the large boxes.

MARK—The emblems on the new wrapper—Triangle, Serpent, Sun, Dove, Lion and Eagle.

MIND—The new wrapper—the large boxes—and the genuine article.

THE TEST.

DALLEY'S GENUINE SALVE, if applied in any case of Burns, Scalds, or Inflammation, will afford almost instantaneous relief! It cools when applied, checks all inflammation instantly, and quickly reduces it. Its effects are so soothing, that in cases of the severest burns and scalds, [*See Hague Street Explosion Case*,] and where the sufferer is in the most excruciating pain, it will entirely ease him in a few minutes, so that in about a quarter of an hour from its application, he will enjoy sleep and repose.

The Counterfeit Salves irritate when applied, and increase the pain and inflammation.

DALLEY'S ANIMAL GALVANIC, a certain, quick, and never-failing remedy for the cure of poll evil, sores, humors, bruises, strains, galls, &c. See the new printed Circulars.
